Profile

I'm a passionate Django developer with 8 months of experience. I know Django inside and out and love building smooth, great-looking websites. I am also skilled in HTML5, CSS3, JavaScript, and Bootstrap for front-end development. I combine my back-end and front-end skills to create seamless, user-friendly web experiences.

Professional Experience

Software Developer, (Techvolt software Pvt.Ltd) **Coimbatore, TN** *Dec 2023 - present*

- Developed and managed "24/7 Car System," a web platform built with Django, highlighting my backend development skills..
- Designed user-friendly front-end interfaces for multiple projects.
- Mentored and trained over 20 interns in both front-end and back-end development.
